Profile

Senior Design Lead with experience in UX research, design leadership and digital transformation. I've led cross-functional teams in complex environments, driving the adoption of new methodologies and a culture open to change. I believe in the value of engaging with diverse perspectives and balancing user insights with strategic vision. Currently at Publicis Sapient, I coordinate projects for Stellantis that require flexibility, critical thinking and adaptability.

Key competencies

- Development and experimentation of research methodologies
- Activation of user insights integrated with strategic vision
- Collaborative and results-oriented leadership
- Change management and rapid adaptability
- Effective presentation of results and synthesis of diverse viewpoints
- Design of business-oriented solutions
- Openness to external ideas
- Native Italian speaker, fluent English
